TITLE IV—INDIVIDUAL TAX PROVISIONS MADE PERMANENT

SEC. 01. FINDINGS.

(a) FINDINGS.—Congress makes the following findings:

(1) Innovation in the United States has been and will continue to be the main driver

of technological progress and economic growth.

(2) Taxation, in the form of both personal income taxes and corporate income taxes, matters for innovation along the intensive and extensive margins and both at the micro and macro levels.

(3) From 1900 to 2000, States with the most innovations also witnessed the fastest growth.

(4) Globally, the evidence demonstrates that countries with an overall lower tax burden will enjoy a higher level of innovation, greater quality of innovation, and more robust inventive activity.

(5) Efficient tax policy can provide effective incentives for many economic activities, including innovation.

(6) Inefficient tax policy can create heavy, deadweight burdens, hurt incentives, and slow down innovation.

(7) High rates of corporate and personal income taxation negatively affect the quantity, quality, and location of innovation at the individual, organizational, and State level.
